INFORMATION ABOUT FILTERS

Types: A, B, E, K. (Against gaz)

type **A** (Brown) ● against gas and organic vapours with a boiling point superior to 65°C.

type **B** (grey) ● against certain gas and inorganic vapours (excluding the carbon monoxide)

type **E** (yellow) ● against sulphur dioxide, other gas, acid vapours.

type **K** (green) ● against ammonia and organic derivatives of ammonia

Classification according to the filter's capacity: 1 = filter of little capacity 2 = filter of middle capacity 3 = filter of high capacity.

Types: (P1, P2 ou P3) (Filtres against particles)

Classification according to the filter's efficiency: P1, P2, P3.
